

# HELLENIKA

nothing more excellent or valuable than  
wine was ever granted by the gods to man.

— plato, greek philosopher

each wine on the hellenika wine list has been carefully hand  
selected to harmoniously complement our menu. every label has a  
purpose and reason for being. we are delighted to present this list  
and the team is here to provide you with an informed and honest  
guide to a true hellenika experience.

## HELLINIKA KRASIA

greek wine is so unique given there are more than 300 indigenous grape varieties grown there, some of which have been cultivated since ancient times. many well-known international grape varieties are also used in greek wine making. wine has been an important part of the greek culture for over 4000 years as the numerous archaeological discoveries throughout greece indicate.

the son of zeus and semele, dionysus was one of the most worshipped greek gods inspiring artists, philosophers, poets, historians and the lives of everyday people. wine in greece has never been just a product, it's a cultural asset. a necessary ingredient on the daily table and a fundamental part of everyday life, wine has a central role in family events, celebrations, and even in many greek religious events.

when you select a greek wine, the product has rare values, excellent quality, intense personality and character, which shoulders the burden of the history and culture of the land where it was produced, the people who cultivated it, and also the traditions of greece, the country in which the art and culture of wine was born.

in recent years, the greek wine industry has undergone enormous improvement with serious investments in modern wine making technology. the new generation of native winemakers are being trained in the best wine schools around the world and their efforts are paying off, as greek wines continues to receive the highest awards in international competitions as well as the recognition they deserve throughout the world.

and it's greek wine that gets me going ... from thrace to kefalonia  
and from amyndaio to crete, greek wine is an endless journey

— yiannis karakasis, mw

# ξινόμαυρο

## XINOMAVRO

xinomavro (xino = acid or sour; mavro = black) is arguably the king of greek red grape varieties, producing a diverse range of wine styles, all the way from rose to aged red wines. this dominant red grape of north-western greece is primarily grown in the regions of naoussa and amyndaio.

stylistically, xinomavro draws comparisons to the nebbiolo grape – which is responsible for the great barolo and barbaresco wines from piedmont – and is characterised by firm tannins and high, natural acidity. the resulting wines have a complex bouquet with aromas ranging from violets and plums, to tomato, tobacco, earthy mushrooms, chocolate and olives. xinomavro holds the ability to age very well and partners beautifully with lamb, veal and braised meats.

## LIGHTLY CHILLED REDS

drinking red wines slightly chilled can be a great alternative to crisp whites or roses in our warm climate and in fact, most red wines – even heavier styles like shiraz and cabernet sauvignon – are designed to be enjoyed at ‘cellar temperature’, typically considered to be around 16-18°C. some red wines – particularly younger wines, fruit driven styles or those red wines that haven’t seen oak – can really shine when served a little cooler. this selection of wines is served at around 12°C – a wonderful match with some of our grilled meats and seafood options
