HELLINIKA KRASIA

greek wine is so unique, given there are more than 300 indigenous grape varieties grown there, some of which have been cultivated since ancient times. many well-known international grape varieties are also used in greek wine making. wine has been an important part of the greek culture for over 4000 years as the numerous archaeological discoveries throughout greece indicate.

*and it's greek wine that gets me going ... from thrace to kefalonia
and from amyndaio to crete, greek wine is an endless journey*
